

Bermuda Hospitals Board

Dr Michael Richmond, MBChB FRCA FCAI (Hon) Chief of Staff

Dr Richmond joined BHB as Chief of Staff in August 2017, assuming responsibility for clinical care and quality at the hospitals. In this most senior medical role at BHB, Dr Richmond leads BHB's team of medical and support personnel. He will be key in ensuring patient safety, sound clinical governance and building positive relations with the physician community.

All BHB medical chiefs and the vice president of Quality & Risk Management report to the Chief of Staff. Dr Richmond reports to Chief Executive Officer Venetta Symonds and is accountable to the Board and the Minister of Health.

Dr Richmond has extensive experience in healthcare and hospital management. Immediately prior to joining BHB, he served in the dual role as Chief Medical Officer at Hamad Medical Corporation and Chief Executive Officer of Hamad Medical Corporation's Women's Hospital in Qatar.

Originally from the UK, Dr Richmond is an anaesthetist with 25 years' experience and 25,000 anaesthetic procedures to his credit. He has worked extensively on major change programmes both in the UK and internationally. Through his work he has developed a strong professional network that includes major medical institutions in the UK, Ireland, United States of America, Canada and Qatar.

Dr Richmond obtained his medical degree from the University of Aberdeen and specialised in anaesthetics at the Royal College of Anaesthetists in the UK and College of Anaesthetists Ireland.
