### **Mental Health First Aid Certification Course 2020**

The goal of the Mental Health First Aid training course is to provide people with the resources to help those experiencing a mental health problem and to guide them to the appropriate professional help. For example, you may encounter an individual in the community, perhaps at work, who you believe may be experiencing symptoms of depression. This course will help you to approach this individual and will give you the tools to discuss your concerns as well as help them seek appropriate professional help.

The programme was developed by Betty Kitchner and Anthony Jorm in Australia in 2001. The programme is currently available in Canada, England, Finland, Hong Kong, Japan, New Zealand, Northern Ireland, Scotland, Singapore, South Africa, Thailand, United States of America and Wales.

Bermuda Hospitals Board is supporting this programme as part of our efforts to educate staff and the community about mental health issues with the goal of decreasing the stigma related to mental illness. Mental Health First Aid aims to educate those without any mental health background.

**The course is free for BHB employees and \$100.00 for non-BHB employees.**
