

FAMILY SUPPORT GROUP

Bermuda Hospitals Board

Community Mental Health Services

**Family Support Group
meetings are free and
confidential.**

If you have a family member or friend experiencing mental health concerns or trauma, you are not alone.

Caring for someone experiencing emotional or psychological difficulties can be demanding. The aim of the Family Support Group is to support you as a caregiver by bringing families together to provide free, confidential support and understanding for one another.

By attending the group, you can gain: comfort and encouragement in coping with a loved one with mental illness, insight into the types of treatments and resources available, and access to clinical professionals.

There will be interesting topics from speakers in the field of mental health.

Family Support Group Drop-in Meetings

KEMH 1st Floor Conference Room, General Wing

The fourth Wednesday of each month from 5:45pm-7pm

For more information or to join the group, call us at 236-3770 or email family.support@bhb.bm.
